| Health Services Access | 69 |

Leading Causes and Population Overview

Top Causes of Mortality and Population Characteristics

Number of Deaths, Georgia, 1997-2022

Source: Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/trendingtool/index.html?redirectto=Mortality>

Leading* Causes of Death, Georgia

Number of Deaths 2018-2022

* Cause categories are the National Centers for Health Statistics (NCHS), rankable causes of deaths applied to Georgia. Covid-19 represents 3 years of data.

"Unintentional Injury" is roughly 1/3 motor vehicle crashes, 1/3 drug overdoses.

Leading* Causes of Death, Georgia

Number of Deaths 2022 Only

* Cause categories are the National Centers for Health Statistics (NCHS), rankable causes of deaths applied to Georgia.

"Unintentional Injury" is roughly 1/3 motor vehicle crashes, 1/3 drug overdoses.

Source: Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP), OASIS <https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Leading* Causes of Premature Deaths (before age 75), Georgia

Years of Potential Life Lost 2018-2022

* Cause categories are the National Centers for Health Statistics (NCHS), rankable causes of deaths. Covid-19 represents 3 years of data. YPLL 75 represents the number of years of life lost before age 75.

"Unintentional Injury" is roughly 1/3 motor vehicle crashes, 1/3 drug overdoses.

Source: Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP), OASIS <https://oasis.state.ga.us/CHNADashboard/Default.aspx>

Leading* Causes of Premature Deaths (before age 75), Georgia

Years of Potential Life Lost 2022 Only

* Cause categories are the National Centers for Health Statistics (NCHS) rankable causes of deaths applied to Georgia.

YPLL 75 represents the number of years of life lost before age 75.

"Unintentional Injury" is roughly 1/3 motor vehicle crashes, 1/3 drug overdoses.

Source: Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP), OASIS <https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Rate of Premature Death (Years of Potential Life Lost (YPLL)), from Any Cause, Georgia, 1997-2022

YPLL 75 represents the number of years of potential life lost due to death before age 75, as a measure of premature death. The YPLL 75 Rate is the years of potential life lost before age 75 that occur per 100,000 population less than 75 years of age.

Source: Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).

<https://oasis.state.ga.us/trendingtool/Mortality>

Population by Non-Hispanic Race, and Hispanic or Latino Ethnicity*, Georgia, 2000-2023

*Hispanic can be of any race.

Poverty Rates, Georgia and U.S., 2002-2022

Poverty Rates of Children <5 years old, Georgia and U.S., 2002-2022

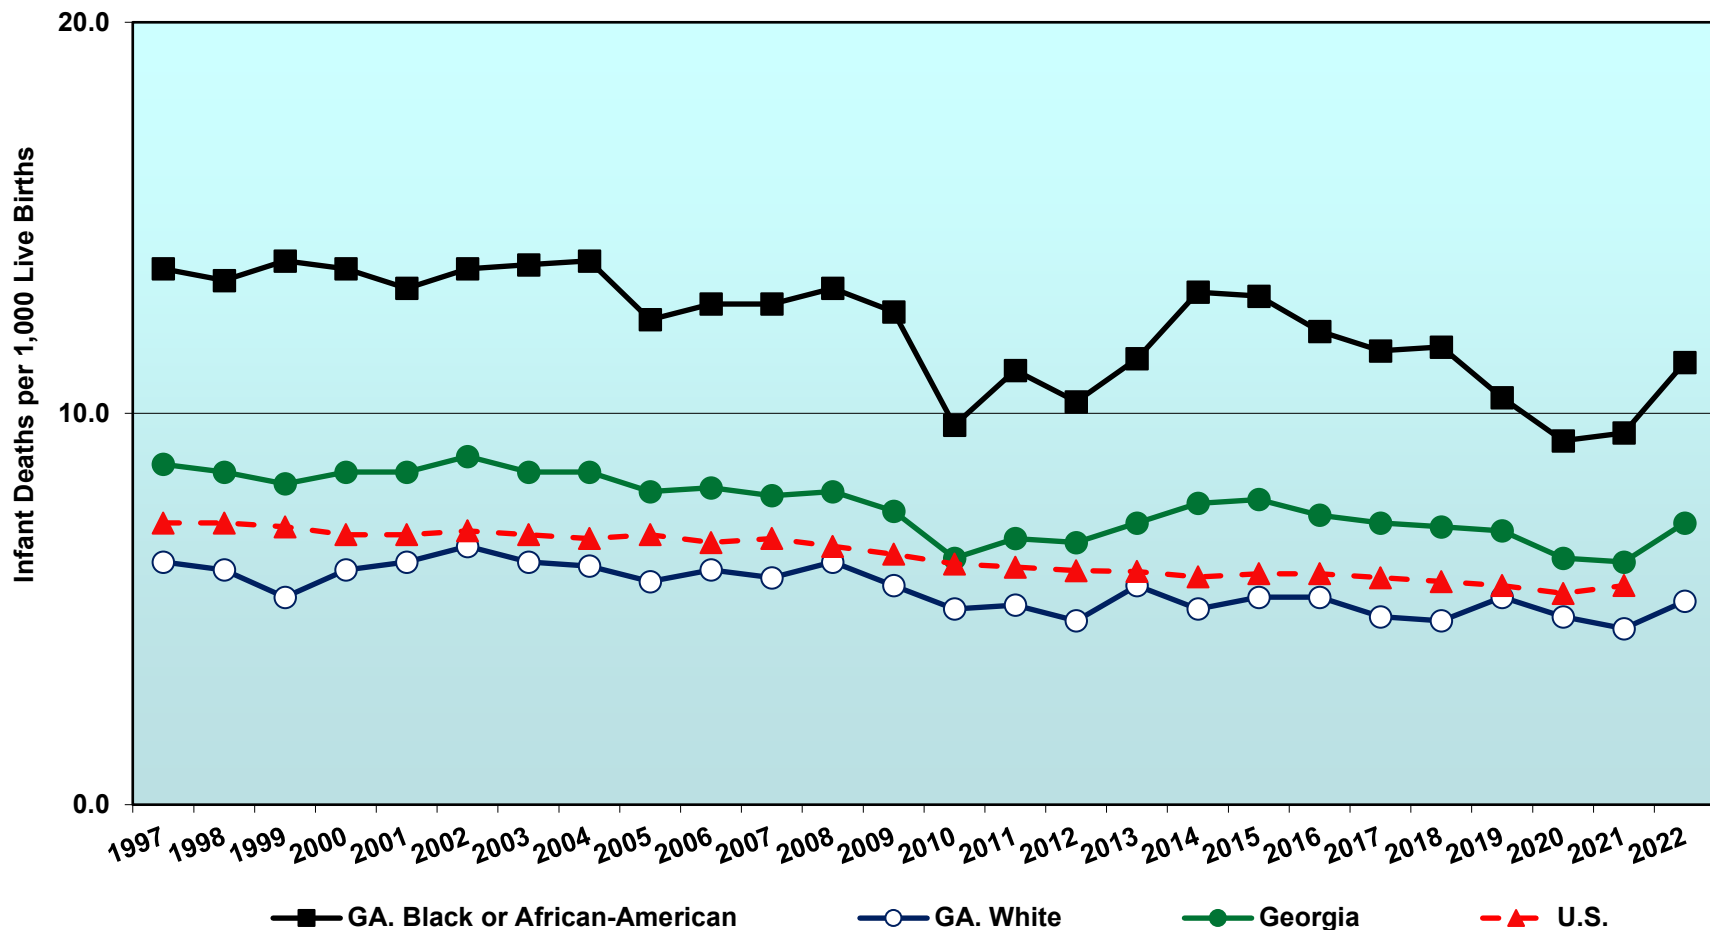

Annual Average Unemployment Rates, Georgia and U.S., 2000-2023

Maternal and Child Health

Infant Mortality Rate by Race, Georgia, and U.S., 1997-2022

Healthy People 2010 Objective = 4.5
Healthy People 2020 Objective = 6.0

Note: 2010 is underreported.

Online Analytical Statistical Information System (OASIS) Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).

<https://oasis.state.ga.us/oasis/webquery/qryInfantDeath.aspx>

Feto-Infant Mortality Rates: Perinatal Periods of Risk, Georgia, 1997-2021 Birth Cohorts

Percentage of Live Births born Premature (<37 weeks), Georgia, and U.S. by Race, 2000-2023*

* Georgia gestation calculated by OE method starting with 2008. U.S. figures from NCHS started using OE in 2007.

Source: Online Analytical Statistical Information System (OASIS), Georgia Department Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryBirth.aspx> U.S. <https://www.cdc.gov/nchs/fastats/births.htm>

Percentage of Live Births Weighing Less than 2,500 Grams (Low Birthweight), Georgia and U.S., by Race, 2000-2023

Healthy People 2000 Objective = 5.0%
 Healthy People 2010 Objective = 5.0%
 Healthy People 2020 Objective = 7.8%

Age-Specific Pregnancy Rate, Females 15-17 Years of Age, Georgia and U.S., by Race, 1997-2022

Healthy People 2000 Objective = 50.0 per 1,000
 Healthy People 2010 Objective = 43.0 per 1,000
 Healthy People 2020 Objective = 36.2 per 1,000

Estimated Pregnancy Rates and Rates of Pregnancy Outcomes for the United States, 1990–2008. National Vital Statistics Reports; vol 60 no 7. Hyattsville, MD: National Center for Health Statistics. June 20, 2012.

Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).

<https://oasis.state.ga.us/oasis/webquery/qryPregnancy.aspx>

Percent Repeat Pregnancies, 10-17 Years of Age, Total and by Race, Georgia, 1997-2022

Percent of Infants Being Breastfed at the Time of Discharge, Total and by Race, Georgia, 2013-2023

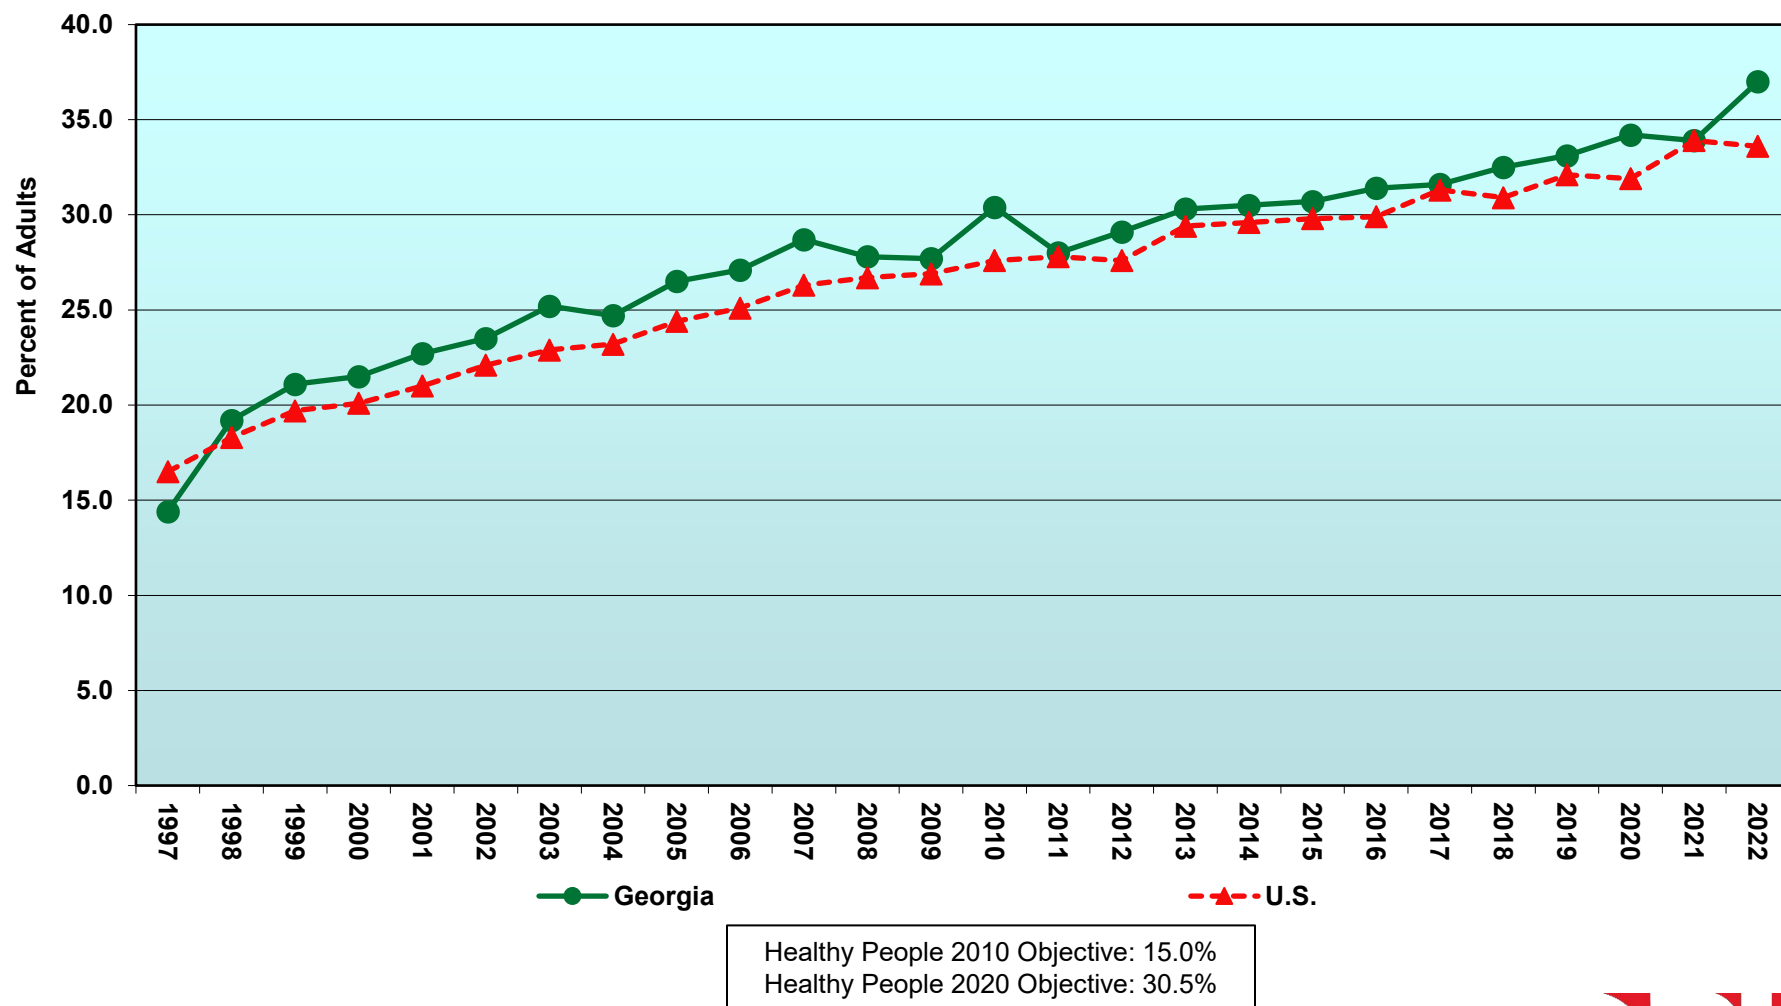

Of Repeat Births, Percent with Less Than Two-Year Birth Interval, Total and by Race, Georgia, 2000-2023

Obesity and Related Conditions

Percentage of Adults 18 Years of Age and Older, who are Obese (BMI ≥ 30), Georgia and U.S., 1997-2022

Obesity is self-reported. Body Mass Index (BMI) is measured as weight in kilograms/height in meters. Survey method changed after 2010.

Source: Centers for Disease Control & Prevention, National Center for Chronic Disease Prevention and Health Promotion, Behavioral Risk Factor Surveillance System (BRFSS), <http://www.cdc.gov/BRFSS/> <https://www.cdc.gov/brfss/brfssprevalence/index.html>

Age-specific Rate of Obesity/Overweight-related Hospitalizations, 5-19 Years of Age, Georgia, by Race, 1999-2021

Definition: Any of the first 10 diagnoses has any one of the following codes:
 ICD-9 Codes: 278.0, 278.0[0-2], 278.1, 278.8, V85.2[1-5], V85.3[0-9], V85.4[1-5], V85.5[3-4] (before 10/1/15).
 ICD-10 Codes: E66.[0-3,9], E65, E67.8, Z68.2[5-9], Z68.3[0-9], Z68.4[1-5], Z68.5[3-4] (10/1/15 and after).

Source: Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP), discharge records.

Percentage of Adults 18 Years of Age and Older who have Diabetes, Georgia and U.S., 1999-2022

Healthy People 2000 Objective: 2.5%
Healthy People 2010 Objective: 2.5%

Age-Adjusted Diabetes Mortality Rates, Georgia and U.S., by Race, 1997-2022

Age-Adjusted Alzheimer's Mortality Rates, Georgia and U.S., by Race, 1997-2022

Cardiovascular Disease

Age-Adjusted Stroke Mortality Rates, Georgia and U.S., by Race, 1997-2022

Healthy People 2020 Objective: 34.8

Stroke = ICD I60-I69 (ICD9 430-434, 436-438)

<https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Percentage of Adults, 18 Years of Age and Older Who Smoke, Georgia and U.S., 1997-2022

Age-Adjusted Prostate Cancer Mortality Rates, Georgia and U.S., Males by Race, 1997-2022

Men only in denominator.

Sources: Centers for Disease Control and Prevention, CDC WONDER, <http://wonder.cdc.gov/>
 Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Age-Adjusted Breast Cancer Mortality Rates, Georgia and U.S. Women by Race, 1997-2022

Healthy People 2020 Objective: 20.7

Women only in denominator.

Sources: Centers for Disease Control & Prevention, CDC WONDER, <http://wonder.cdc.gov/>
 Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Percentage of Women 40 Years of Age and Older, Who Have Received a Mammogram Within the Last Two Years, Georgia and U.S., 2000-2022

Healthy People 2010 Objective: 70%

Age-Adjusted Colon Cancer Mortality Rates, Georgia and U.S., by Race, 1997-2022

Healthy People 2020 Objective: 14.5

Age-Adjusted Cervical Cancer Mortality Rates, Georgia and U.S. Women, by Race, 1997-2022

Healthy People 2020 Objective: 2.2

Women only in denominator.

Sources: Centers for Disease Control & Prevention, CDC WONDER, <http://wonder.cdc.gov/>
 Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Percentage of Women 18 Years of Age and Older, who had a Pap Test within the Last 3 Years, Georgia and U.S., 2000-2020

Healthy People 2000 Objective: 90.0%
Healthy People 2010 Objective: 85.0%
Healthy People 2020 Objective: 93.0%

Infectious Disease

Age-Adjusted Pneumonia Mortality Rates, Georgia and U.S., by Race, 1997-2022

Sources: Centers for Disease Control & Prevention, CDC WONDER, <http://wonder.cdc.gov/>
 Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Percentage of Adults 65 Years of Age and Older, Ever Vaccinated for Pneumococcal Disease, Georgia and U.S., 1999-2022

Healthy People 2000 Objective: 60.0%
Healthy People 2010 Objective: 90.0%
Healthy People 2020 Objective: 90.0%

Age-Specific Influenza Hospital Discharge Rate, Adults 65+ Years of Age, Georgia, by Race, 2001-2022

Age-Specific Influenza Mortality Rate, Adults 65+ Years of Age, U.S. and Georgia, 1997-2022

GA rates not displayed when < 5 events

Sources: Centers for Disease Control & Prevention, CDC WONDER, <http://wonder.cdc.gov/>
 Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryMortality.aspx>

Percentage of Adults 65+ Years of Age, Who Have Received a Flu Vaccination within the Past 12 Months, Georgia and U.S., 2001-2022

Healthy People 2000 Objective: 60%
 Healthy People 2010 Objective: 90%
 Healthy People 2020 Objective: 90%

Source: Centers for Disease Control & Prevention, National Center for Chronic Disease Prevention and Health Promotion, Behavioral Risk Factor Surveillance System (BRFSS), <http://www.cdc.gov/BRFSS/> <https://www.cdc.gov/brfss/brfssprevalence/index.html>

Age-Adjusted Influenza and Covid-19 Mortality Rates, Georgia, 2000-2022

Asthma

Age-Adjusted Asthma Mortality Rates, Georgia and U.S., by Race, 1997-2022

Age-Adjusted Asthma Emergency Room Visit Rates, Georgia, by Race, 2002-2022

Source: Online Analytical Statistical Information System (OASIS). Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).
<https://oasis.state.ga.us/oasis/webquery/qryER.aspx>

Number of Asthma Emergency Room Visits, Georgia, by Age Group, 2002-2022

External Causes

Drug Abuse / Suicide / Motor Vehicle Crashes / Homicide

Deaths From Drug Overdoses, Georgia, 1999-2022

Note: "Natural, Semi-synthetic, Synthetic Opioids", "Synthetic Opioids other than Methadone", "Heroin", and "Methadone" are not mutually exclusive.

Source: OASIS. Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP).

<https://oasis.state.ga.us/trendingtool/index.html?redirectto=MortalityDrugOverdoses>

Age-Adjusted Drug Overdose Mortality Rates, Total and by Race, Georgia, 1999-2022

Drug Overdose = ICD10 X40-X44, X60-X64, X85, Y10-Y14.

Deaths from Drug Overdoses* and Suicides, Georgia, 1996-2022

* 'Poisoning' (ICD10 X40-X49) displayed above is used as a surrogate for Drug Overdose. Poisoning is accidental and includes alcohol; and contains ~90% of all Drug Overdoses. 'Drug Overdoses' (X40-44, X60-64, X85, Y10-14) can be accidental or intentional (e.g. suicide) but excludes alcohol.

Deaths from Drug Overdoses* and Motor Vehicle Crashes, Georgia, 1996-2022

* 'Poisoning' (ICD10 X40-X49) displayed above is used as a surrogate for Drug Overdose. Poisoning is accidental and includes alcohol; and contains ~90% of all Drug Overdoses. 'Drug Overdoses' (X40-44, X60-64, X85, Y10-14) can be accidental or intentional (e.g. suicide) but excludes alcohol.

Immunization

Immunization Coverage Combined 7 Vaccine Series (4:3:1:3:3:1:4), Among Children 35 Months of Age, Georgia and U.S., 2011 - 2020

| | | | | | | | |
|-------------------|------|-------|-----|-----|--------|-----------|-----|
| Vaccine | DTaP | Polio | MMR | HIB | Hep. B | Varicella | PCV |
| Recommended Doses | ≥4 | ≥3 | ≥1 | 3 | ≥3 | ≥1 | ≥4 |

Data are by birth cohort year.

Source: Centers for Disease Control & Prevention, National Immunization Survey, <https://www.cdc.gov/vaccines/imz-managers/coverage/childvaxview/index.html> <https://www.cdc.gov/vaccines/imz-managers/coverage/childvaxview/interactive-reports/index.html>

Health Services Access

Percent of Hospital Discharges that were Self-Pay, Total and by Race, Georgia, 2000-2022

Definition: Self-pay - paying out of pocket for a health-related service in absence of insurance. The total number of dischargers where Primary Payor was "self-pay" per 100 total discharges.

Source: Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP). From <https://oasis.state.ga.us/oasis/webquery/qryMorbidity.aspx>

Percent of Hospitalizations that were Avoidable*, Total and by Race, Georgia, 2000-2022

*Ambulatory Care Sensitive Conditions (ACSC): Conditions that respond to timely and effective care in the outpatient (ambulatory) setting. ACSC's are used as Prevention Quality Indicators, and can assist in evaluating quality or use of primary health care.

Source: OASIS. Georgia Department of Public Health, Office of Health Indicators for Planning (OHIP). <https://oasis.state.ga.us/oasis/webquery/qryACSC.aspx>

*Prepared by the Office of Health Indicators for Planning (OHIP),
Epidemiology Division,
Georgia Department of Public Health.*

*Many health indicators used in this report reside in the Department's Health Information Repository,
and can be accessed online via the Online Analytical Statistical Information System (OASIS):
<https://oasis.state.ga.us/>*

All data reflect Residents of Georgia.
