OASIS

ONLINE ANALYTICAL STATISTICAL INFORMATION SYSTEM

Web-Based Tools for Public Health and Public Policy Data Analysis

Accessing the Georgia Department of Public Health's Data Warehouse

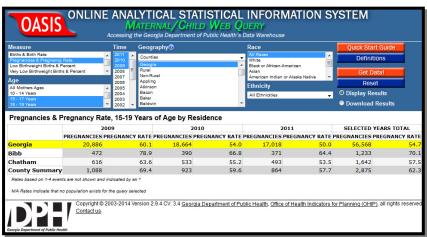

OASIS (http://oasis.state.ga.us/) is a suite of tools used to obtain tables, maps, and charts of a variety of public health indicators. Currently, vital statistics (births, deaths, fetal deaths, induced terminations), hospital discharge, emergency room visit, STD, motor vehicle crash, and population data are included. All data can be selected by **age**, **race**, and **sex** (*Person*), **state**, **county**, and **census tract** / **county commission district** / **Demographic Cluster** where available

(Place), and year (Time).

There are several OASIS business intelligence tools. Three are featured here:

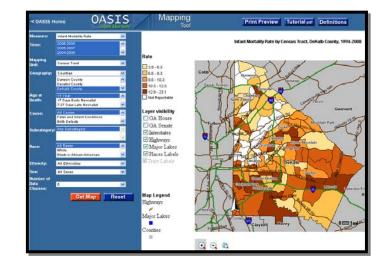

OASIS Web Query Tool \rightarrow

Obtain indicators in tabular form, choosing from a set of measures such as Low Birth Weight Rate or age- and cause-specific age-adjusted death rates.

OASIS GIS Mapping Tool ightarrow

Map indicators by county **and census tract**, also choosing from a set of measures such as Infant Mortality Rates or Emergency Room visits.

ONLINE ANALYTICAL STATISTICAL INFORMATION SYSTEM

OASIS Animated Charting Tool ightarrow

Get charts of age/race/sex distributions of population, hospital discharge, ER visits in pyramid form. Observe change in distributions over time as an animated movie.
